## MARKET FOR BERRIES

The Godfrey Canning Factory is Putting Up 600 to 700 Cases a Day.

## EMPLOYS OVER FORTY HANDS.

Black Raspberries sell at the Factory For 40 Cents a Case, the Cases Returned.

The C. H. Godfrey & Co., canning factory is now buying 600 to 700 cases of raspberries every day which they are canning and evaporating.

The firm is paying 40 cents a case for the black raspberries and 50 cents for the red ones. They could buy thousands of cases at this figure every day but they limit their purchases to their existing contracts or the capacity of their factory. Last night they could not get the quantity of red berries they desired and so went over to St. Joseph and bought 125 cases at 50 cents a case. Forty cents a case at the canning factory is about equal to 65 cents a case in Chicago as there is no outlay for cases, freight, cartage or commission. The Godfrey company is paying out \$2,000 a week to the farmers.

Besides this they are giving employment to twelve to fifteen men and twenty-five girls and women, who are receiving good wages. The girls work by the piece and earn from \$1 per day up.

The berries are poured raw into the tin cans by girls; the cans are then passed to another set of girls where the proper amount of sugar is poured on top; then men pour the cans full of water and carry them over to the boiling vats. The fruit is left in the boiling water a certain number of minutes, 7 minutes for the quart cans and 15 minutes for the half gallon cans. The cans are taken out when cooked and the covers soldered on while the can and contents are still hot.

About 125 cases of the berries are dried every day in the evaporator which is run by hot air.

## AN INTERESTING TRIAL.

It Will be Held Before Justice Cady Tomorrow.

Tomorrow at 9 o'clock in Justice Cady's court will begin the trial of Jacob Hershaw, of Sodus, who is accused of threatening an assault with a butcher knife and revolver upon Delmer La Plant, and whom La Plant is disposed to have placed under bonds to keep the peace.

The case is interesting a large portion of the population of Sodus township and the trial, it is thought, will be attended by the friends of the two men in large numbers.

Constable Fye this forenoon subpoenaed 18 witnesses who will testify in the case tomorrow and it is not likely that the trial will be concluded in one day.

## KLONDIKE GOLD FEVER.

It Has Laid Its Hot Hand on Edgar Nichols.

Former Postmaster Edgar Nichols, has an attack of the Klondike gold fever. He went over to Chicago yesterday to find out what he could and brought home a big map of Alaska showing the different routes and the location of the gold fields. The map is now on exhibition at the store of Hall & Nichols.

Mr. Nichols learned from reliable sources that the reports of the gold findings were not overdrawn.

He talked with Inspector Rhineberg of the life saving service who spent three years about the shores of Alaska on one of Uncle Sam's revenue cutters. He said that there is no more danger of freezing there than here and that people dressed in furs and did not suffer any more from the cold. Furs can be bought very cheap of the natives and food can always be had though sometimes expensive.

Fred Hollister, formerly employed by Kidd, Dater & Co., was also seen. He made a trip to Alaska and if he had not grown homesick would now be worth \$20,000. He did not think that the accounts had been overdrawn.

The agent of the North America Transportation company did not encourage or discourage about going this fall. The Yukon river begins to freeze at Circle City about September 20 and it is now too late to reach the gold country by the water route this fall. The boat will go up the Yukon as far as possible and from there the tourists must travel overland. The agent says that the route through Sitka and Juneau is almost impassable on account of a mountain pass which is yet unexplored. The fare from Benton Harbor by the water route is \$211.50.

Mr. Nichols said today he would give \$10,000 if he were in the Klondike country now.

We have just received a fine line of solid gold and gold filled spectacles. We will fit them to your eyes and sell them at one-half the regular price. Call and see them at C.R. Hollis & Son, the jewellers.

## THE WEATHER.

Cloudy tonight and Thursday with rain in Northern Michigan.

## THE ELECTRIC ROAD

Arrangements Made For Resuming the Work.

President Hamilton and Secretary Davies of the Benton Harbor electric railroad company returned home from Chicago this morning, where they completed arrangements to resume work on the construction of the road.

Vice President Deam has not yet returned with the combination of the safe and the papers are yet kept out of the hands of the proper officials.

It is expected that the men will be paid off and the work resumed next week.

## ANOTHER HARD BLOW.

It Is Given the Bell Telephone Company by the City of St. Joseph.

## SIX BELL 'PHONES DISCARDED.

A Few Citizens Say the Council's Action Deprives Them of Proper Fire Protection.

The Bell telephone company suffered a blistering blow from the St. Joseph city council last night. It was ordered by that body that the six 'phones now in use by the city, furnished by the Bell people, be removed at once and the city transact its telephone business over the lines of the Twin City exchange.

This order went into effect amid some opposition. It was opposed by one alderman—Alderman Reeves—and Manager Badour of the Bell exchange and a few citizens raised their voices against the measure. Mr. Badour insisted that the entire six 'phones would be furnished free. It would not cost the city a cent to use them from the present until an indefinite period in the future.

The citizens who favored the use by the city of the Bell 'phones reside on the outskirts of the city and have all installed Bell 'phones in their residences since the reduction in the rates by that company. These people claim that the adoption by the city of the Bell 'phones will give them better fire protection than they now enjoy. In case of a blaze in their locality they can alarm the fire department over their 'phones, with the city using the Bell instruments, while with the Twin city company's 'phones in the city hall and fire station the 'phones in their residences are of little utility. They have all signed a year's contract with the Bell company at prices varying from \$6 to \$12 per year and they want to get value received.

E. N. Hatch, Alfred Baldrey and W. A. Preston used persuasive arguments against the further use by the municipality of the Bell company's instruments. It was shown that the exorbitant telephone rates of the Bell company would have continued had not the citizens' exchange got into the field, and that the city was protecting its residents by adopting, exclusively, the use of the new 'phones.

When the council balloted on the resolution to remove the Bell 'phones all the councilmen but Reeves voted for it. Reeves said "nit."

## Other Council Proceedings.

A petition to extend the water main on Lakeview avenue was referred to the board of public works.

The committee from the board of public works, instructed to make a house to house inspection with a view to detecting water thieves, reported one case in which the payment of \$10 into the city treasury was evaded by reason of the connection not having been reported.

John Kibler was granted permission to tap the sewer on Main street.

## ORIGINAL ALASKA MAN

Fred O'Rourke Holds That Proud Distinction Among Our Gold-Struck Folks.

### FEVER HIT HIM TWO YEARS AGO

It Is Not Known Whether Benton Harbor Will Furnish Any Recruits.

Fred O'Rourke, the head salesman at C. J. Brown's grocery store, was Benton Harbor's original Plague man and long before the nominating convention he emptied his pockets of small change and had a lithograph of the potato mayor nicely framed.

Not to be outdone in the role of originality by anybody else Mr. O'Rourke now announces that he suffered the original attack of the Alaska gold fever in this section. Two years ago he was on the verge of starting for the new gold fields and had he gone he would now be on his way home carrying \$100,000 of the yellow dust.

Mr. O'Rourke still has the disease and he is spreading the contagion broadcast. Unless put in quarantine the first thing they know he will have organized a band of gold diggers and will be piloting them to the new country.

### TWO ROUTES.

Either Leads to the New Alaskan Gold Fields.

SEATTLE, July 21.—The routes that go into the Klondike are two. The best but the most expensive is by steamer from Seattle to St. Michael's, and then by river boat up the Yukon 1,700 miles to Dawson City. By this route it takes 35 to 40 days and the fare is \$180. The steamers permit only 150 pounds of baggage for each passenger. Two steamers that will leave before the river is closed by ice cannot carry more than 150 passengers each. On the other route the passenger goes from Seattle to Juneau. There at this season all packs must be carried on Indians' backs or on mules. When snow falls sledges can be used and the trip can be made much more easily. The distance is 650 miles. There is great difficulty, however, in procuring Indians after snow flies on Sept. 15, and the cold is arctic.

Leaving Juneau you go to Ty-A by way of Lime canal, and from there to Lake Lindemann, 30 miles on foot, or portage, as we call it. The lake gives you a ride of five or six miles, and then follows another long ride overland to the headwaters of Lake Bennett, which is 28 miles long. On foot you go again for several miles, and then the caribou crossing of the river furnishes transportation for four miles to Tagish lake, where another 21-mile boat ride may be had. This is followed by a weary stretch of mountainous country and then Marsh or Mud lake is reached. You get another boat ride of 24 miles, and then go down the creek for 27 miles to Miles canon and to White Horse rapids. This is one of the most dangerous places on the entire route, and should be avoided by all strangers. The stream is full of sunken rocks and runs with the speed of a mill race. Passing White Horse rapids the journey is down the river for 30 miles to Lake Babine, where 31 miles of navigable water is found. Another short portage and the Yukon is reached, where you have a 200-mile journey, which takes you to Fort Selkirk. At this point Pelly and Louis rivers come together, forming the Yukon. From this point on is practically smooth sailing, though the stranger must be exceedingly careful.

### THAT NEW FACTORY.

Why Not Put Up a Suitable Building?

President J. J. Miller of the board of trade has received another letter from Ballhouse & Stuben, the Kalamazoo manufacturers who expect to locate in this city. The gentlemen in their letter suggest that instead of the old laundry building that the Galligan boiler-shop be rented for starting up the industry. The fault with the other building is its low ceiling, which will not admit of running the belting with proper facility.

Such a building as is required can be erected for \$1,000. Instead of paying rent why not raise a stock company and put up a building? It will be as easy to raise \$1,000 for a building as \$200 for a year's rent.

### A SECOND FIRE.

It Breaks Out in the Godfrey Canning Factory.

Fire again broke out in the Godfrey canning factory at 2 o'clock this morning, at the same place the blaze was located yesterday afternoon—in the drier.

The alarm was sounded by Officer Perry and the department was on the scene in time to prevent extensive damage by the flames. The fire is supposed to have been kindled by embers remaining from yesterday's blaze. It was promptly extinguished and if any damage was done it was from the water used in extinguishing the fire.

### ARISTOCRACY.

It Has Found Its Way to Paw Paw Lake.

PAW PAW LAKE, July 21.—Like all well regulated summer resorts Paw Paw lake has its aristocratic community. This is found at Edgewater Glenn on the south shore of the lake, land which once was owned by Lawyer Victor M. Gore, of Benton Harbor, but which now is the property of Capt. Feltus.

Lots in that locality are selling at \$600 apiece and they are being gobbled up by wealthy Chicagoans. The lots are large but not large enough to please the fancies of the Chicago aristocrats and two and sometimes three of them are purchased for a site for the magnificent homes to be erected there.

Four or five new residences—more properly palaces—are rising skyward at Edgewater Glenn and will be occupied by their wealthy owners as soon as completed.

### DR. CURTIS' TROUBLE.

He Had a Permit to Carry a Revolver but was Arrested.

Dr. Curtis, arrested in Stevensville yesterday on a complaint charging him with carrying concealed weapons, will have his hearing next Friday before a Stevensville justice. He will be defended by Lawyers Hammond & Hammond, of this city.

There is no doubt of the doctor having carried a revolver, which he concealed from the public gaze, but in this offense the doctor is not alone. Half of the population of Stevensville are said to go armed, and they enjoy this privilege by authority of President C. D. Shearer, of the village.

The army of thugs which makes Stevensville a rendezvous during the summer is a menace to the safety of the citizens and although the village has an ordinance prohibiting the carrying of concealed weapons President Shearer was disposed to permit the villagers to provide themselves against attacks from the rag tag element by carrying arms. He considered that in spite of the ordinance he had authority to say whether a resident had a right to carry a concealed gun and he therefore issued numerous permits, one of which he gave Dr. Curtis, which read like this: "This is to certify that I have given A. B. Curtis the privilege of carrying a revolver, for personal safety, within the corporation of the village of Stevensville."

"C. D. SHEARER, president." As soon as it was learned that Dr. Curtis carried a revolver Marshal Olmstead lodged a complaint against him and now the doctor has been advised that President Shearer had no authority to grant him permission to go armed when there was an ordinance preventing it.

### MISERIES' BORDERLAND.

There's an intangible, but nevertheless definite line that exists in life. Step beyond its border and the gloom of pain, the poison of despair stares you in the face. Health is the sunny land of life, disease the gloom. It is asserted that the mysterious border once crossed there can be no returning. In many, many cases it is true, provided an unskillful practitioner has the individual in charge. Not so with Drs. B. S. & Co., the eminent specialists of Muskegon. Under their manipulation and scientific discoveries, and their application, all functional and organic troubles and their consequent evils are banished perfectly and permanently. The victim, the sufferer, regains his health and strength and becomes again a sound being. Their marvelous skill and ability is not the result of chance or "luck," but the legitimate growth of preserving application and unrestrained research. Their cures are vouched for and substantiated by living proofs, by the healthy beings who have been restored through Drs. B. S. & Co's skill.

twenty-six feet deep. Were General  
Wilson to come here he would rebuke  
Benton Harbor on the same ground.

SOME hidebound papers, dishonest  
with themselves and their constituents,  
now claim that the gold discoveries  
will make times better and give gold  
enough to carry on the business of the  
world. Not three weeks ago these  
same papers claimed that there was  
gold enough for all needed exchange.

Miss Jean Ingelow, the English  
poetess who has just died, will be re-  
membered as a sweet writer, if not a  
great composer of verse. Through  
many of her poems there runs a sad  
strain which seems to speak of disap-  
pointed love. She never married and  
it is not known that ever she had a  
lover.

DR. H. V. Tutton, our usually effi-  
cient health officer, ought to be talked  
to by Mayor Bell. Scattered all about  
the city are cases of contagion where  
no placards warn the neighbors or  
passersby. The disease thus allowed  
all away has not yet been given its  
scientific name but to the untutored in  
medical books it is called plain Klondike  
gold fever. Perhaps the health  
officer has no quarantine signs for this  
disease, but there are printing offices  
and that does not furnish him an ex-  
cuse. In passing judgment on this  
gross neglect it is right to add that the  
Klondike fever never proves fatal to  
the patients who remain away from  
Alaska.

Big Watermelon for McKinley.  
Atlanta, July 20.—The largest water-  
melon grown in the south this season  
was shipped here yesterday for Wash-  
ington, to President McKinley at the  
White House. The melon weighed sev-  
enty-eight pounds.

Senator Harris' Successor Appointed.  
Memphis, July 20.—A dispatch from  
Johnson City to the Commercial-Appeal  
says Governor Taylor has appointed  
Thomas B. Turley, of Memphis, United  
States senator to succeed the late Sen-  
ator Harris.

## Our Shoe ...Advertising

Is based on good shoes. We could sell a poor  
shoe at a big profit just once, but we'd lose your  
trade. We'd rather sell a good shoe at a right  
profit and keep on selling all the time. It doesn't  
take an unusually wise head to see that we  
make more that way, although some cute mer-  
chants keep on trying the other way. We will  
make it up by selling shoes to the whole family,  
and while we may not make as much profit on  
one pair we'll make it up by selling more pairs.

After Having Done Only Four Days' Work in Thirty Years—How He Got His Whiskers—Corn Salve For Runners and Burned Sores For Freebom.

Tick Lowndes, the ex-king of the fakirs, having become rich, left off traveling on his fiftieth birthday, married a young wife and settled down in Philadelphia, "because I was born there," he says in explanation of this strange thing, "and I believe a man ought to give the town he was born in a show."

For nearly 80 years Lowndes, circumnavigating the globe 11 times, beamed upon the world's population through his Moes P. Handy whiskers, and, in his own words, "joshed 'em all, white, black, red, brown and yellow," into providing for his luxurious existence and for his eventual wealth. He got his nickname of Tick from the solid gold watches he used to sell to countrymen for the nominal sum of two bits.

"Maybe you think they won't go," he would bawl, holding up one of his watches when purchasers were backward. "That's where you're 'way off. Listen to this one tick." And he would imitate the ticking of a watch with his mouth so that the sound could be easily heard by those on the outer limits of the crowd around his torch illuminated carriage. Success and seniority gave him the title king of the fakirs, by which he was known until his retirement.

"I often hear no account chaps talking about how hard it is to get along in this world," said Lowndes when he was here. "They make me weary. The world is easy—easy"—snapping his fingers as if the subject was too silly to talk about. "When I was a small boy, playing marbles and shinny and peg top, I looked about me and saw all hands breaking their necks trying to earn a living—struggling, sweating, worrying, working like the devil, every one of 'em."

"It was positively painful for me to watch 'em, although I was only in knee breeches. I made up my mind right then that I had a heap too big a capacity for fun to wear myself out working, and I determined to make the world my oyster. Well, I've been nibbling on the oyster ever since, and the only work you could call work that I ever did was four days of coal heaving down in the stokehole of a Japanese steamer on which I was a stowaway. How's that for a record—only four days' work in 80 years! Don't I look it?"

Tick did look it. He was a perambulating jeweler's shop. Diamonds glittered all over him—not the sort of diamonds he used to put into his Pandora envelopes. It was acknowledged that he looked prosperous all right.

"Now you'll be astonished, but the worst jays I ever struck anywhere in the world are the Russians. I think I sold about five tons of axle grease corn salve for a ruble an ounce box on one trip through southern Russia. All the men in Russia have corns. They all wear heavy cowhide boots—the ordinary folks, I mean—which I suppose accounts for it. I felt almost ashamed the way those Russian folks fell over each other to buy my ordinary axle grease of commerce for their corns, and the worst of it was that in the larger towns, where I staid for three or four days, the yaps that had bought the stuff on the first day of my arrival came to me before I left and told me gratefully that the grease had entirely cured their corns. Why, I was regarded as a public benefactor throughout the whole Russian empire."

"I found the French pretty easy ones, too, especially in the smaller towns. The first time I hit France I was selling West Indian perfumed beans. They were the ordinary American beans that they don't know how to cook in Boston, despite all this talk of Boston as the town of beans. I dyed the beans blue and soaked 'em over night in cologne. I used a Mexican vaquero's make up on this trip and sold the beans a dozen for a franc, with a long spell-bind about the perfume lasting for 1,000 years, and so on. It was like finding money, this bean fake in France."

"All of the South Americans, from Panama to Patagonia, are pretty easy to gold brick. All over South America I sold thousands of gallons of whitening tonic to make the half breeds white. I made it of nights as I went along out of any old thing that wasn't harmful—dandelion roots, wild cherry bark and such stuff. The governments got after me finally for it, though, and that's the reason the half breeds of South America are still reddish in color. Their governments wouldn't let 'em buy enough of my whitening stuff, you see."

"The Mexicans'll buy anything. You may not believe it, but I sold thousands of dollars' worth of common bar soap for removing grease spots on one trip down there, notwithstanding the fact that the duds worn by the people who bought the soap were as much on the G string order as the law of the land would permit. I sold 'em safety razors that cost me a quarter each wholesale for \$5, which was about as low down as ever I played it, as any man who ever used a safety razor will admit."

"I would have made a million out of the natives of the Fiji Islands if the jealous white residents down there had not choked me off. As it was, I cleaned up a good bit of money on the scheme. I traded off blue spectacles with the Fijians for cochineal. Cochineal at that time was about worth its weight in silver. The Fijians went crazy over my stock of goggles, and I had several of the islanders gathering cochineal for me until the people hunted me out."

"I was cooking up a scheme to sell the natives some stuff to straighten their kinky wool and make it look like the white man's hair, but the white people wouldn't stand it, although I had a lot of it."

So many people have heard of the story of bloodhounds have been told that it is interesting to read a true story of a chase by a bloodhound in which the hunter and the hunted were equally satisfied. It is vouched for by a writer in Good Words, who had it from an eyewitness.

The bloodhound was enjoying a stroll with his master on the sands of Weston-super-Mare, quietly following the horse his owner rode. Neither was thinking of a chase. In fact nothing seemed further from the character of the dog than a desire to interfere with any human being. The group of pleasure seekers scattered over the sands saw nothing unusual in him, nor did the poor distracted woman who ran from one group to another frantically asking for tidings of a lost child. Nobody knew anything of the missing boy, and when in her desperation she approached the gentleman on the horse he also shook his head.

But though he knew nothing of her boy, he was not so sure that he could not help her find him. He alighted from his horse, and thrusting his arm through the bridle bent over the hound, putting both hands carefully round his head. Then he took from the woman something that looked like a child's hat and held it toward the dog, talking to him the while. The hound sniffed and whined mournfully, as if unwilling to leave his master. Soon, however, he lifted his head in the air, uttered a short, sharp bark or bay and began sniffing about the sands.

For a minute or two he followed the scent in a zigzag fashion, and then, with a long, loud bay, turned off at an amazing pace, ran in a straight line across the sands, crossed the parade, and, baying as he went, turned down a side street.

That was an exciting chase—the field the streets of a populous watering place and the game a lost child. The loud voice of the dog could be heard in the distance, guiding those who followed.

The mother's feet were swift, but she could not keep up with the dog. On he went till he had run his prey to ground. Then he stopped and fawned upon the little lad, who was overjoyed to find so friendly a playmate. When the mother came up, hunter and hunted were the best of friends, so much so that neither was willing to part with the other.

The gentleman had more than once to summon his dog before he would consent to leave the child. As for the boy, he could not be led away while the dog remained, and after the hound had disappeared he was still heard to murmur, "I would like that dear doggie for my own."

#### NATURE'S CYCLE PATH.

The Sandy Shore of Lake Erie Is Admirably Fitted For Wheeling.

Most of us at one time or another have basked for awhile upon some sandy beach of ocean or lake. We have bathed in the surf, gathered shells upon the shore, and thus whiled away many idle hours, but it was reserved for the bicycle to make us really acquainted with those stretches of beach and shore which seem to have been purposely prepared by kind Mother Nature as a glorious cycle path. Whether or not she originally intended it for wheels, she certainly spends a great deal of her time in keeping the path in repair, and those active servants of hers, wind and wave, rain and sun, are kept very busy at work upon it all the time.

This long and varied path stretches in its entirety hundreds of miles along our ocean shores and around the borders of our great lakes, but the particular bit with which we became familiar during happy summer weeks, and to share in whose delights I would tempt others, is a comparatively small portion on the southern shore of Lake Erie. It begins with the extreme end of Cedar point, which with its long arm holds in a portion of Sandusky bay, and extends eastward 15 miles or more up the shore. This sandy shore continues all the way to Cleveland and beyond, but because of some intervening piles of rock one cannot ride the whole 50 or 60 miles. The shorter distance is, however, enough for a summer day's ride, especially if one takes it comfortably and leisurely and appropriates to himself the countless joys spread before him.—Grace Wickham Curran in St. Nicholas.

#### Zoological Gardens.

The following figures show the annual cost for maintenance of some of the principal foreign zoological gardens: Berlin, \$187,500; Antwerp, \$138,800; Amsterdam, \$105,000; London, \$100,000; Cologne, \$75,800; Rotterdam, \$65,000; Hanover, \$42,000; Paris, \$20,000. Thus far the cost of maintaining the zoological parks in Washington and Philadelphia has been \$50,000 each per year.

#### Not Bird Built.

"There was a strange man here to see you today, papa," said little Ethel, who met her father in the hall as he came home on Wednesday night.

"Did he have a bill?"

"No, papa. He had just a plain nose."—Philadelphia Times.

Warwick and the midlands boast a very innocent beverage. It is a concoction of ginger, buttercup seed, cayenne and beet juice and is calculated to scorch the lining from a traction engine. Taken raw, it is probably the hottest drink in the country, but it does no harm, and, if well watered, is pleasant enough.

Keats fell in love with Fanny Brawne, a dull and unattractive young woman. In one of his letters to her he says, "I feel an awful warmth about the heart, like a load of immortality."

On June 12, 1755, upward of 3,400 salmon were taken above the bridge in the river Tyne and sold in Newcastle at 10s. per hundred.

It is an unusual thing for a grown person to have a really pretty foot uncovered and subject to a scrutiny which notes all details. The chief reason is that the process of deforming it is begun in childhood. If tight, hard and ill fitting boots were

never worn until maturity, the foot would be uncomfortable, it is true, and somewhat injured, but having had its natural development before being exposed to unnatural conditions, it would not be apt to be ruined by conventional treatment. In the first place, the wearing of leather shoes, or even kid ones, should be postponed as long as possible. The baby's shoes should be first of worsted, then of cloth, close enough not to slip, but conforming to the shape of the foot. The cloth shoes should be kept on to the latest age that they can be worn, and after that soft kid should be adopted. The soles may be as strong and thick as use demands, but the rest of the shoe should be soft and pliable. Short shoes deform the joints, narrow ones produce corns, very loose ones likewise cause corns and chafe the foot as well as wear out the stocking. A well made shoe, which fits the foot and does not squeak, costs more than a common one chosen at hazard, but it also wears much longer and looks better while it lasts. Those parts of the wardrobe which affect the physical comfort and the shape of the body are the parts which require the most careful attention and are worthy of the most pecuniary outlay where the question of money has to be considered.

An illustration is given today which shows a summer cape of black satin. It is moderately full and is ornamented with reverse and double epaulets of heavy Isigny guilpore applied over a red lining. A ruche of black mousseline de sole trims the front, the collar and stimulates a pointed yoke at the back, descending in front in accompaniment to the reverse. The cape is fastened by bows of black satin, held by buckles of steel or jet. The crevelated collar of red silk is covered with guilpore, and the lining is of white satin.

# HOW TO RUN THE ONE GIVEN DEB IN THE WEST VIRGINIA COAL FIELD.

## PRICE TALK NOT AT ALL POPULAR

**Miners Labor Reformer Threatened with Death if He Goes to Kanawha—Will Go Anyway, but Feels Discouraged—Watson Provide a Tough Problem for Strike Agitators—Another Move To Be Made on the Kanawha Mines, Which Are Running Again.**

Cincinnati, July 21.—A special to The Commercial-Tribune from Wheeling, W. Va., says: Changes that have an important bearing upon the coal strike situation in West Virginia come slowly. The state taken as a whole is against the strike for financial reasons, and all who have struck have been brought out under pressure of the organizers and agitators from elsewhere. Generally they have been shamed into striking, and their minds change when the agitators move on to other sections. In the Fairmont region Debs admits that he is sorely discouraged. Seventy-six of the Monongah men brought out Monday have returned. The Fairmont managers declare that if the Watson men, about 1,000 in number, can be kept at work the other miners will be working tomorrow as usual. Debs' speech at Rivesville last night to the Watson men was not successful. Today he will speak at Worthington and Minersville to more of the Watson men. It is generally predicted that he will have no better success there.

**Watsons Are Popular with the Men.**  
The Watsons and their men are on excellent terms and neither side has any grievance. They lead the region in production and profits and have the miners tied up in agreeable contracts to purchase cheap homes and to furnish necessities in sickness and death. The miners have cause to like and respect the Watsons and will probably stick to them. Rev. John Chenoweth, who preaches to the Watson miners, says he never saw employers and men on better terms. It transpires that Debs has been shadowed by two Pinkerton men, and that he has been threatened with death if he goes to Kanawha. He will go, however, tomorrow. A gang of 150 Italians is to arrive at Fairmont today. They were to have worked on a new railroad, but will try mining. In the Kanawha valley there is no material change, the success of the organizers at one point being offset by resurrections at others.

**Atkinson Is for the Strikers.**  
Sixteen hundred cars of coal were shipped yesterday, the biggest shipment in years. There have been threats of holding up trains at Kenova and over in Ohio, and more watchmen have been placed at danger points. Senator Camden yesterday said there was no strike at the mines of the Camden companies, and that Fairmont is working as usual except for a few idlers who do not want work. Governor Atkinson was here yesterday. He thinks the strike will become general and hopes the men will win. He says he has not been consulted about using the military, and that none but the most violent outbreak would call for its use. The Glenale miners near Wheeling came out yesterday, and they threaten to march upon the Bogg's Run mine today, and this will cause trouble.

**Will Demand the 1884 Scale.**  
Charleston, W. Va., July 21.—At a secret meeting of strike leaders at Montgomery it was decided to demand the reinstatement of the scale of 1881, which was 76 cents per ton for hard coal and 54 cents per ton for soft coal. A committee was appointed to wait upon the operators and make the formal demand.

**Refused to Let Sovereign Speak.**  
Bluefield, W. Va., July 21.—The mayor refused to allow Grand Master Workman Sovereign to speak at Pocahontas Monday night. Yesterday W. J. Friedman, an agitator, was seriously injured by being struck by a stone, and four other agitators were forced to flee.

**Columbus, O., July 21.—Organizers Green and Wallace notified headquarters yesterday afternoon that they were compelled to leave Pocahontas, W. Va., at the point of six shooters. They did not offer resistance. They, however, remained in the neighborhood with intention of doing missionary work among the miners.**

**CANONSBURG NEEDS ATTENTION.**  
Army of 1,000 Strikers Preparing to Go to That Point Once More.

Pittsburg, July 21.—The attention of the miners of the Pittsburg district is now riveted on the Allison, Boone and Enterprise mines, near Canonsburg. The Boone and Allison mines, which were closed Monday by the owners to prevent trouble between their men and the marching strikers, resumed yesterday with nearly a full force. No attempt was made to start up at the Enterprise mine. The strikers fear that if these mines continue in operation it will induce the Enterprise men to go back to work. The programme of the strikers is to make another march on the Allison mine. The leaders said yesterday afternoon that more than 2,000 diggers would be massed in the Panhandle district and another march made on the mines. Last night the miners of the Panhandle district were gathering above Bridgeville and it will not be surprising if 1,000 miners are found today on the Washington pike. The men in the Miller's and Tom's Run district are all idle, and have plenty of time to make another march. They were supplying themselves with several days' rations, and if the proposed march is made they will stay about the offending mines for several days.

Up to a late hour last night no word relating to a march had been received at district headquarters. The march is made this time will be a secret. Just at this stage of the strike sensational developments are expected. The men are beginning to feel the pangs of hunger and want, and are in a condition bordering on desperation. It was learned yesterday that organizers have been secretly at work among the miners of the New York and Cleveland Gas company for several days. One of the company's property was seized with an intention of forcing the company's property.

**General Statement.** As near as can be learned a concerted effort will be made in the near future to bring out the men at Turtle Creek, Sandy Creek and Plum Creek. Just what procedure will be resorted to has not yet been decided.

The officials feel that in order to make the strike a success in this district these miners must be brought out. They admit that they have a difficult job on their hands, as De Armit's men seemed determined to remain at work. The mines are running at their fullest capacity and are supplying a large quantity of coal to the trade. The coal market was quiet yesterday. Much coal was offered at \$1.25 a ton. Slack took a big jump and sold for 85 cents a ton. Before the strike it was sold at 40 cents a ton. There are hundreds of tons of slack coal at the mines in the Pittsburgh district, but the miners' officials will not permit any of it to be loaded. A number of strikers interfered with men who were loading from barges into cars coal that had been purchased by W. H. Simmons, a dealer, from C. Jutte & Co. The men were compelled to quit work. Miners' Secretary Ward disapproved of the action and issued orders to the strikers to molest no men who are handling coal that was mined before the strike was inaugurated.

## TROUBLE BREWING IN ILLINOIS.

**Strikers at Bloomington Say Work Shall Stop, Operators Say It Shant.**  
Bloomington, Ill., July 21.—All the miners here went to work yesterday as usual. By tonight they will have finished putting the mine in order for the strike beginning tomorrow morning. The union men have notified the operators that they will remain idle until the general strike is successful and until the Bloomington operators pay 73 cents, third vein, instead of 60 cents, now paid. The union men declare they will not allow any men to work after today. The operators assert that they will fully protect all desiring to work, no matter what the cost. A conflict is probable tomorrow morning. The Lake Erie and Western railroad, unable to obtain coal here, has abandoned three construction trains and one way freight by which 100 men are made idle.

St. Louis, July 21.—There has been no disorder of any kind at Belleville, Ill. The marching strikers from O'Fallon and Connellsville, 300 in number, arrived at Belleville last evening. They had two six-horse wagons and half a dozen four horse-teams decorated with flags and banners and flowers. The procession went up High street and halted in the court house square. Here the marchers were fed from the commissary wagon, supplemented by supplies contributed by citizens. The marchers declare their intentions are eminently peaceful, and that the only methods they will use are argument and persuasion.

**Strike Declared Ended.**  
Detroit, July 21.—S. G. Carter, national secretary of the Metal Polishers, Platers and Buffers' union, announces that the eighteen months' strike of the polishers employed by the Overman Wheel company at Chicopee, Mass., has been settled and declared off. The cause of the strike was alleged discrimination by the company against union men.

**Both Husband and Wife Insane.**  
Decatur, Ill., July 21.—John A. Shafer, a farmer in Pleasant view township, was adjudged insane in the county court. As he was taken to jail to be sent to the asylum a petition for an inquisition into the sanity of his wife, who was in court, was filed, and she was also taken into custody to have an examination. They were married forty years ago. The old man has had epilepsy and troubles in connection with his farm have worried both of them. They are childless.

**Illinois Board of Pardons.**  
Springfield, Ill., July 21.—Among the acts of the state board of pardons yesterday were the following recommendations, signed by Governor Tanner: John Taylor, larceny, from Christian county, pardoned; William Richey, Henry county, murder, 1874, sentenced for life, pardoned; Dennis Lyons, McLean county, 1896, robbery, pardoned; James McCain, Pope county, incest, fourteen years, pardoned; Nelson Smith, Peoria county, rape, fifteen years, commuted.

**Amalgamated Wage Scale.**  
Youngstown, O., July 21.—The Amalgamated Association wage scale committee wrestled within itself all yesterday over the question of making concessions to the manufacturers, and only tightened up their resolution to stand out for the scale in full as adopted at the Detroit convention. Then a joint session was held with the manufacturers which gave up the attempt to agree and adjourned to Aug. 2.

**Young Baptists Go to the Expo.**  
Nashville, Tenn., July 21.—Yesterday was Baptist day at the exposition. Among the visitors were 1,500 delegates from the national convention of the Baptist Young People's Union at Chattanooga. President Thomas and Rev. J. O. Rust, of Nashville, delivered addresses of welcome, and President Chapman and Rev. M. Williams, of New York, responded.

**Tyrotrotoxin in the Milk.**  
Ann Arbor, Mich., July 21.—It is learned that about thirty nurses and patients at the university hospital were poisoned by tyrotrotoxin in milk last Saturday night. The cause of the trouble was traced to a can which had been used without being scalded and was left in the hot sun. The victims are reported to be out of danger.

**Cotton Mills Decide to Close.**  
Salem, Mass., July 21.—The Naumburg cotton mills here have decided to close for a number of weeks and the 2,000 operatives have been so notified. The mills have been running on a forty-two-hour per week schedule for some time. The curtailment is due to an unsatisfactory market.

**Has a Record, This Girl.**  
Niles, Mich., July 21.—Carrie Prescott, of Berrien county, is establishing a remarkable matrimonial and divorce record. While not 16 years of age she has just procured a bill of divorce from John McGinnis, who is the second husband she has been divorced from.

**Dubuque Club Reorganized.**  
Dubuque, Ia., July 21.—The Dubuque Base Ball association has been reorganized with Joseph E. Stinson, president, and Frank E. Stinson, secretary.

**Ready-Wanted Thieves.**  
 Sheriff Ferguson arrived from Hersey last night with two boys, Otis Bentley and Frank Roby, who are charged with breaking into a trunk at the residence of John Eber in Royaltown township recently and extracting therefrom \$40 in money. The boys were in Mr. Eber's employ as berry pickers and were regarded as honest and trustworthy. As soon as the theft was discovered Sheriff Ferguson circulated cards with descriptions of the boys with the result that the sheriff at Hersey captured them Monday. The warrants for their arrest were issued by Justice Cady. The boys have confessed their guilt to Sheriff Ferguson and tomorrow they will be given an opportunity to waive a preliminary hearing after which they will be held to the circuit court.

Complaints were lodged before Justice Cady this morning charging Monroe Morrow and Norman Thompson with fighting. Both participants appeared in court without the formalities of a warrant being served upon them and paid a fine of \$2.50 and \$2.45 costs each. Mr. Thompson was formerly an attache of the Palladium, but at present is employed as pressman by The News. A dispute over the amount of a debt due Mr. Morrow and contracted a year ago led up to the fight. Thompson maintains that Morrow used abusive language and otherwise acted ungentlemanly.

Anthony Drach, arrested on suspicion of having designs on his wife's life, was released last evening. No complaint was lodged against him and the officers saw no reason for detaining him.

George E. Moore, the colored boy accused of stealing a watch, pleaded guilty to simple larceny before Justice Baldrey yesterday afternoon and was sentenced to 30 days in the county jail.

Henry Reese is in the county jail awaiting examination on the complaint of stealing a bicycle owned by Edward Mohler, of The Resorter. Reese was arrested by Officer Bard of St. Joseph.

Detective Hartford, of the Central detail of Chicago, arrived in St. Joseph this morning for the purpose of getting John Gray, wanted in Chicago for larceny of a tandem which he tried to palm off on John Duncan at St. Joseph Monday and was arrested by Chief Stuckey upon instructions from Chief Kipley of Chicago.

Carl Hurtz paid a fine of \$3 in Justice St. Clair's court this morning for getting intoxicated.

**COLOMA FEMALE PICNIC.**  
**The Women of Coloma Have No Use For Men Sometimes.**

COLOMA, July 21.—What the men of the village are pleased, in their wisdom, to call a "hen picnic" will be held at the lake on Thursday of this week. Every woman in town who can leave her fruit canning and the superintendence of affairs in general will be counted in the flock which will hold its annual meeting on that day.

Just what will constitute the program of the day, besides the best dinner that experienced hands can provide is a matter of much speculation among the old "roosters" who will be left alone on the home perch unless they organize an opposition show.

The "hen" picnic was held last year at Pottawatomie park.

**A Treat at the Lake.**

COLOMA, July 21.—On Friday evening of this week little Alice McClung, now in St. Joseph, but belonging to Coloma when she first came prominently before the public, will give one of her unique musical programs at Beechwood Point, Paw Paw lake. She will be assisted by Miss Hansen, of Benton Harbor, and Mr. Clark, of Chicago, the latter a violinist of note.

The satisfaction of an audience after hearing Miss Alice cannot be expressed in words, and she will undoubtedly score another success in the presence of the many guests at the lake who will gladly avail themselves of the opportunity of hearing her.

**He Will Preach at Coloma.**

COLOMA, July 21.—Next Sunday the Methodist congregation at Benton Harbor will be deprived of their popular pastor's presence for the day. He is announced to be in this village on that day and to preach in the M. E. church.

**Lactated Food by Far Best Summer Diet.**

**Children Fed on It Keep on Steadily Growing.**

**Gives Strength to Overcome All Bowel Disorders.**

**Diet That Excludes Every Chance of Diarrhoea.**

**Infants "Not Doing Well" Soon Improve on It.**

Babies must not stop eating greedily and growing steadily because of hot weather.

If they do, mothers should take alarm. Any interruption because of heat, loss of appetite or indigestion, should compel the immediate attention of mothers to baby's food. There is where the trouble lies.

Every day of retarded growth is a lasting setback in the child's development. A week that does not show a gain in weight and size is lost and cannot be made up, as each day and night during these early years has its own allotted growth to answer for.

Summer and winter alike, a healthy baby should show a decided gain, week by week.

During these important first few years, when the child is rapidly developing, no pains should be spared to secure food of absolute purity and sufficiently nourishing to make sure of complete and healthy growth.

The purest, most nutritious and the most easily assimilated infant diet is lactated food. A poorly fed baby may sometimes increase in weight and grow fat, but the flesh is flabby, the blood poor and thin, the skin white and the temper irritable. These are often the first symptoms of "rickets." By feeding the little one upon lactated food, which is declared by physicians to be the most perfect substitute for pure and healthful mother's milk, these symptoms are easily avoided.

Too many infants are literally starved because the mother's food does not agree with them, and some mothers are obstinately foolish enough to cling to breast milk when they perceive its insufficiency.

When infants throw up their milk or when they are not keeping up their strength, especially during the hot weather, it is plain that there is trouble with the food. Children "not doing well," when fed with this splendid nutriment gradually cry less and less; their sleep becomes sound by night and by day they are bright and noisy and happy. Such is the great difference between babies who are nourished by lactated food and those that are poorly, because improperly, fed.

Lactated food has saved thousands of infant lives from cholera infantum, colic and fatal diarrhoea. Physicians prescribe lactated food to be kept always on hand and used at once upon the first indication of looseness, loss of strength, or if baby is not eating well and growing on its present diet.

Lactated food is easily within the means of the humblest home in the land. It is just now a necessity in every family, where there are young children.

**HANGING A GUERRILLA.**

**He Accepted His Fate Without a Word or a Tear.**

A shot had been fired at us as we rode along the highway in column of fours, and a trooper reeled and pitched from his saddle, shot through the heart. The shot was fired by a guerrilla hidden in a cornfield, and we got the order to throw down the fence and ride through the field. He was captured at the far end of it, just as he was about to gain the woods. He was a man 50 years old, grim and grizzly, and with eyes of defiance.

"Waal, what is it?" he quietly asked of his captors.

"Do you live about here?"

"In the cabin down thar."

"Got a family?"

"Yea."

"Want to bid 'em goodbye?"

"I reckon."

"Come along."

The cabin was reached in five minutes. A gray haired woman and a girl of 15—wife and daughter—stood in the open door.

"What is it, Jim?" asked the wife as the man stood before her.

"Gwine to kill me, I reckon," he replied.

"What fur?"

"Fur killin one of them."

"Hul Goodby, Jim!"

"Goodby, daddy!" from the girl.

"Goodby!"

No handshakes, no tears, no sentiment, no pleading. Ten rods below the house was a large shade tree. Two or three halters were knotted together, the rope thrown over a limb, a noose slipped over the man's head, and next moment he was dangling clear of the ground. He had no excuses, made no plea, asked no mercy. He went to his death with the stoicism of an Indian. Wife and daughter stood in the doorway and saw all, but there were no tears, no outburst. As we were ready to ride away the woman came slowly down the spot, looked at the body for half a moment, and then turned to ask:

"Is Jim dead?"

"Yea," answered the captain.

"Hul!" And she walked slowly back to the house, and entered it, and shut the door and we rode away.

THE senate seems to dictate the price of sugar and Wall street dictates the price of cotton.

GENERAL John M. Wilson, chief of the engineering corps of the United States, has just given Chicago a stinging rebuke for not having a harbor twenty-six feet deep. Were General Wilson to come here he would rebuke Benton Harbor on the same ground.

SOME hidebound papers, dishonest with themselves and their constituents, now claim that the gold discoveries will make times better and give gold enough to carry on the business of the world. Not three weeks ago these same papers claimed that there was gold enough for all needed exchange.

Miss Jean Ingelow, the English poetess who has just died, will be remembered as a sweet writer, if not a great composer of verse. Through many of her poems there runs a sad strain which seems to speak of disappointed love. She never married and it is not known that ever she had a lover.

DR. H. V. Tutton, our usually efficient health officer, ought to be talked to by Mayor Bell. Scattered all about the city are cases of contagion where no placards warn the neighbors or passersby. The disease thus allowed full sway has not yet been given its scientific name but to the untutored in medical books it is called plain Klondike gold fever. Perhaps the health officer has no quarantine signs for this disease, but there are printing offices that do not furnish him an excuse. In passing judgment on this gross neglect it is right to add that the Klondike fever never proves fatal to the patients who remain away from Alaska.

Our Shoe...Advertising

Is based on good shoes. We could sell a poor shoe at a big profit just once, but we'd lose your trade. We'd rather sell a good shoe at a right profit and keep on selling all the time. It doesn't take an unusually wise head to see that we make more that way, although some cute merchants keep on trying the other way. We will make it up by selling shoes to the whole family, and while we may not make as much profit on one pair we'll make it up by selling more pairs.

## Debs in the West Coal Field.

### NOT AT ALL POPULAR

Reformer Threatened with  
Goes to Kanawha—Will Go  
but Feels Discouraged—Wat-  
son a Tough Problem for Strike  
Another Move To Be Made on  
Canonsburg Mines, Which Are Run-

July 21.—A special to The  
Tribune from Wheeling, W.  
Changes that have an im-  
portance upon the coal strike  
West Virginia come slowly.  
Taken as a whole is against  
for financial reasons, and all  
truck have been brought out  
of the organizers and  
from elsewhere. Generally  
have been shamed into striking,  
minds change when the agi-  
tators move on to other sections. In the  
region Debs admits that he  
is discouraged. Seventy-six of  
the men brought out Mon-  
day returned. The Fairmont man-  
agers that if the Watson men,  
in number, can be kept at  
the other miners will be  
tomorrow as usual. Debs'  
move last night to the  
was not successful. To-  
day he will speak at Worthington and  
go to more of the Watson men.  
He has predicted that he will  
succeed there.

Debs Are Popular with the Men.  
Watsons and their men are on  
friendly terms and neither side has  
any grievances. They lead the region  
in production and profits and have the  
miners tied up in agreeable contracts  
to purchase cheap homes and to furnish  
necessaries in sickness and death. The  
miners have cause to like and respect  
Watson and will probably stick  
to him. Rev. John Chenoweth, who  
speaks to the Watson miners, says  
that the Watson employers and men on  
both sides. It transpires that Debs  
has been shadowed by two Pinkerton  
agents and that he has been threatened  
with death if he goes to Kanawha. He  
will go, however, tomorrow. A gang  
of about 100 Italians is to arrive at Fair-  
mont today. They were to have worked  
on the new railroad, but will try mining.  
In the Kanawha valley there is no ma-  
terial change, the success of the organ-  
izers at one point being offset by re-  
fusions at others.

Atkins Is for the Strikers.  
Sixteen hundred cars of coal were  
shipped yesterday, the biggest ship-  
ment in years. There have been threats  
of holding up trains at Kenova and  
over in Ohio, and more watchmen have  
been placed at danger points. Senator  
Hadden yesterday said there was no  
strike at the mines of the Camden com-  
pany, and that Fairmont is working as  
usual except for a few idlers who do  
not want work. Governor Atkinson  
here yesterday. He thinks the  
miners will become general and hopes  
that they will win. He says he has not  
been consulted about using the military,  
but that none but the most violent out-  
rages would call for its use. The Glen-  
ville miners near Wheeling came out  
yesterday, and they threaten to march  
upon the Bogg's Run mine today, and  
this will cause trouble.

Will Demand the 1884 Scale.  
Charleston, W. Va., July 21.—At a se-  
cret meeting of strike leaders at Mont-  
gomery it was decided to demand the  
reinstatement of the scale of 1881, which  
was 75 cents per ton for hard coal and  
40 cents per ton for soft coal. A com-  
mittee was appointed to wait upon the  
miners and make the formal demand.  
Refused to Let Sovereign Speak.  
Bluefield, W. Va., July 21.—The mayor  
refused to allow Grand Master Work-  
man Sovereign to speak at Pocahontas  
yesterday night. Yesterday W. J. Freid-  
man, an agitator, was seriously injured  
by being struck by a stone, and four  
other agitators were forced to flee.  
Columbus, O., July 21.—Organizers  
Green and Wallace notified headquar-  
ters yesterday afternoon that they  
were compelled to leave Pocahontas,  
W. Va., at the point of six shooters.  
They did not offer resistance. They,  
however, remained in the neighborhood  
with intention of doing missionary work  
among the miners.

CANONSBURG NEEDS ATTENTION.  
Many of 1,000 Strikers Preparing to Go to  
That Point Once More.

Pittsburg, July 21.—The attention of  
the miners of the Pittsburg district is  
directed on the Allison, Boone and  
Enterprise mines, near Canonsburg.  
Boone and Allison mines, which  
closed Monday by the owners to  
prevent trouble between their men and  
the marching strikers, resumed yester-  
day with nearly a full force. No at-  
tempt was made to start up at the En-  
terprise mine. The strikers fear that if  
these mines continue in operation it  
will induce the Enterprise men to go  
back to work. The programme of the  
miners is to make another march on  
the Allison mine. The leaders said yester-  
day afternoon that more than 2,000  
miners would be massed in the Pan-  
handle district and another march made  
on the mines. Last night the miners  
of the Panhandle district were gather-  
ing above Bridgeville and it will not be  
surprising if 1,000 miners are found  
on the Washington pike. The  
miners in the Miller's and Tom's Run dis-  
tricts are all idle, and have plenty of  
time to make another march. They  
are supplying themselves with sev-  
eral days' rations, and if the proposed  
march is made they will stay about the  
mine for several days.  
A late hour last night no word  
came from the march had been received  
from the district headquarters. If the march  
is made the time will be kept a secret.  
The stage of the strike sensa-  
tion is expected. The  
miners are feeling the pangs of  
want, and are in a condi-  
tion of desperation. It was  
yesterday that organizers have  
been at work among the min-  
ers at work among the min-  
ers at work among the min-

men at the near future to bring out  
the men at Turtle Creek, Sandy Creek  
and Plum Creek. Just what procedure  
will be resorted to has not yet been  
decided.

The officials feel that in order to make  
the strike a success in this district  
these miners must be brought out. They  
admit that they have a difficult job  
on their hands, as Debs' men  
seemed determined to remain at work.  
The mines are running at their fullest  
capacity and are supplying a large  
quantity of coal to the trade. The coal  
market was quiet yesterday. Much coal  
was offered at \$1.25 a ton. Slack took  
a big jump and sold for 85 cents a ton.  
Before the strike it was sold at 40 cents  
a ton. There are hundreds of tons of  
slack coal at the mines in the Pittsburg  
district, but the miners' officials will  
not permit any of it to be loaded.

A number of strikers interfered with  
men who were loading from barges into  
cars coal that had been purchased by  
W. H. Simmons, a dealer, from C. Jutte  
& Co. The men were compelled to quit  
work. Miners' Secretary Ward disap-  
proved of the action and issued orders  
to the strikers to molest no men who  
are handling coal that was mined be-  
fore the strike was inaugurated.

### TROUBLE BREWING IN ILLINOIS.

Strikers at Bloomington Say Work Shall  
Stop, Operators Say It Shall Not.

Bloomington, Ill., July 21.—All the  
miners here went to work yesterday as  
usual. By tonight they will have fin-  
ished putting the mine in order for the  
strike beginning tomorrow morning.  
The union men have notified the op-  
erators that they will remain idle until  
the general strike is successful and un-  
til the Bloomington operators pay 73  
cents, third vein, instead of 60 cents,  
now paid. The union men declare they  
will not allow any men to work after  
today. The operators assert that they  
will fully protect all desiring to work,  
no matter what the cost. A conflict is  
probable tomorrow morning. The Lake  
Erie and Western railroad, unable to  
obtain coal here, has abandoned three  
construction trains and one way freight  
by which 100 men are made idle.

St. Louis, July 21.—There has been no  
disorder of any kind at Belleville, Ill.  
The marching strikers from O'Fallon  
and Connelville, 300 in number, ar-  
rived at Belleville last evening. They  
had two six-horse wagons and half a  
dozen four-horse teams decorated with  
flags and banners and flowers. The pro-  
cession went up High street and halted  
in the court house square. Here the  
marchers were fed from the commis-  
sionary wagon, supplemented by sup-  
plies contributed by citizens. The  
marchers declare their intentions are  
eminently peaceful, and that the only  
methods they will use are argument  
and persuasion.

### Strike Declared Ended.

Detroit, July 21.—S. G. Carter, national  
secretary of the Metal Polishers, Plat-  
ers and Buffers' union, announces that  
the eighteen months' strike of the pol-  
ishers employed by the Overman Wheel  
company at Chicopee, Mass., has been  
settled and declared off. The cause of  
the strike was alleged discrimination  
by the company against union men.

### Both Husband and Wife Insane.

Decatur, Ill., July 21.—John A. Shafer,  
a farmer in Pleasant View township,  
was adjudged insane in the county  
court. As he was taken to jail to be  
sent to the asylum a petition for an in-  
quisition into the sanity of his wife,  
who was in court, was filed, and she  
was also taken into custody to have an  
examination. They were married forty  
years ago. The old man has had epilepsy  
and troubles in connection with his  
farm have worried both of them. They  
are childless.

### Illinois Board of Pardons.

Springfield, Ill., July 21.—Among the  
acts of the state board of pardons yester-  
day were the following recommendations,  
signed by Governor Tanner: John  
Taylor, larceny, from Christian county,  
pardoned; William Richey, Henry county,  
murder, 1874, sentenced for life, par-  
doned; Dennis Lyons, McLean county,  
1896, robbery, pardoned; James McCain,  
Pope county, incest, fourteen years, par-  
doned; Nelson Smith, Peoria county,  
rape, fifteen years, commuted.

### Amalgamated Wage Scale.

Youngstown, O., July 21.—The Amal-  
gamated Association wage scale com-  
mittee wrestled within itself all yester-  
day over the question of making conces-  
sions to the manufacturers, and only  
tightened up their resolution to stand  
out for the scale in full as adopted at the  
Detroit convention. Then a joint session  
was held with the manufacturers which  
gave up the attempt to agree and ad-  
journing to Aug. 2.

### Young Baptists Go to the Expo.

Nashville, Tenn., July 21.—Yesterday  
was Baptist day at the exposition.  
Among the visitors were 1,500 delegates  
from the national convention of the Bat-  
tist Young People's Union at Chatta-  
nooga. President Thomas and Rev. J.  
O. Rust, of Nashville, delivered address-  
es of welcome, and President Chapman  
and Rev. M. Williams, of New York, re-  
sponded.

### Tyroxoloxin in the Milk.

Ann Arbor, Mich., July 21.—It is  
learned that about thirty nurses and pa-  
tients at the university hospital were  
poisoned by tyroxoloxin in milk last  
Saturday night. The cause of the trouble  
was traced to a can which had been used  
without being scalded and was left in  
the hot sun. The victims are reported  
to be out of danger.

### Cotton Mills Decide to Close.

Salem, Mass., July 21.—The Naum-  
baug cotton mills here have decided to  
close for a number of weeks and the  
2,000 operatives have been so notified.  
The mills have been running on a forty-  
two-hour per week schedule for some  
time. The curtailment is due to an un-  
satisfactory market.

### Has a Record, This Girl.

**R. HOLLIS & SON,**

No handshakes, no tears, no sentiment, no pleading. Ten rods below the house was a large shade tree. Two or three halters were knotted together, the rope thrown over a limb, a noose slipped over the man's head, and next moment he was dangling clear of the ground. He had no excuses, made no plea, asked no mercy. He went to his death with the stoicism of an Indian. Wife and daughter stood in the doorway and saw all, but there were no tears, no outburst. As we were ready to ride away the woman came slowly down the spot, looked at the body for half a moment, and then turned to ask:

"Is Jim dead?"

"Yes," answered the captain.

"Hu!" And she walked slowly back to the house and entered it and shut the door, and we rode on and left the scene of our journey.

## MARKET FOR BERRIES

The Godfrey Canning Factory is Putting Up 600 to 700 Cases a Day.

EMPLOYS OVER FORTY HANDS.

Black Raspberries sell at the Factory For 40 Cents a Case, the Cases Returned.

The C. H. Godfrey & Co., canning factory is now buying 600 to 700 cases of raspberries every day which they are canning and evaporating.

The firm is paying 40 cents a case for the black raspberries and 50 cents for the red ones. They could buy thousands of cases at this figure every day but they limit their purchases to their existing contracts or the capacity of their factory. Last night they could not get the quantity of red berries they desired and so went over to St. Joseph and bought 125 cases at 50 cents a case. Forty cents a case at the canning factory is about equal to 65 cents a case in Chicago as there is no outlay for cases, freight, cartage or commission. The Godfrey company is paying out \$2,000 a week to the farmers.

Besides this they are giving employment to twelve to fifteen men and twenty-five girls and women, who are receiving good wages. The girls work by the piece and earn from \$1 per day up.

The berries are poured raw into the tin cans by girls: the cans are then passed to another set of girls where the proper amount of sugar is poured on top; then men pour the cans full of water and carry them over to the boiling vat. The fruit is left in the boiling water a certain number of minutes, 7 minutes for the quart cans and 15 minutes for the half gallon cans. The cans are taken out when cooked and the covers soldered on while the can contents are still hot.

About 125 cases of the berries are dried every day in the evaporator which is run by hot air.

### AN INTERESTING TRIAL.

It Will be Held Before Justice Cady Tomorrow.

Tomorrow at 9 o'clock in Justice Cady's court will begin the trial of Jacob Hershaw, of Sodus, who is accused of threatening an assault with a butcher knife and revolver upon Delmer La Plant, and whom La Plant is disposed to have placed under bonds to keep the peace.

The case is interesting a large portion of the population of Sodus township and the trial, it is thought, will be attended by the friends of the two men in large numbers.

Constable Fye this forenoon subpoenaed 18 witnesses who will testify in the case tomorrow and it is not likely that the trial will be concluded in one day.

### KLONDIKE GOLD FEVER.

It Has Laid Its Hot Hand on Edgar Nichols.

Former Postmaster Edgar Nichols, has an attack of the Klondike gold fever. He went over to Chicago yesterday to find out what he could and brought home a big map of Alaska showing the different routes and the location of the gold fields. The map is now on exhibition at the store of Hall & Nichols.

Mr. Nichols learned from reliable sources that the reports of the gold findings were not overdrawn.

He talked with Inspector Rhineberg of the life saving service who spent three years about the shores of Alaska on one of Uncle Sam's revenue cutters. He said that there is no more danger of freezing there than here and that people dressed in furs and did not suffer any more from the cold. Furs can be bought very cheap of the natives and food can always be had though sometimes expensive.

Fred Hollister, formerly employed by Kidd, Dater & Co., was also seen. He made a trip to Alaska and if he had not grown homesick would now be worth \$20,000. He did not think that the accounts had been overdrawn.

The agent of the North America Transportation company did not encourage or discourage about going this fall. The Yukon river begins to freeze at Circle City about September 20 and it is now too late to reach the gold country by the water route this fall. The boat will go up the Yukon as far as possible and from there the tourists must travel overland. The agent says that the route through Sitka and Juneau is almost impassable on account of a mountain pass which is yet unexplored. The fare from Benton Harbor by the water route is \$211.50.

Mr. Nichols said today he would give \$10,000 if he were in the Klondike country now.

We have just received a fine line of solid gold and gold filled spectacles. We will fit them to your eyes and sell them at one-half the regular price. Call and see them at C.R. Hollis & Son's, the home jewelers. 536 1/2

### THE ELECTRIC ROAD

Arrangements Made For Resuming the Work.

President Hamilton and Secretary Davies of the Benton Harbor electric railroad company returned home from Chicago this morning, where they completed arrangements to resume work on the construction of the road.

Vice President Deam has not yet returned with the combination of the safe and the papers are yet kept out of the hands of the proper officials.

It is expected that the men will be paid off and the work resumed next week.

## ANOTHER HARD BLOW.

It Is Given the Bell Telephone Company by the City of St. Joseph.

SIX BELL 'PHONES DISCARDED.

A Few Citizens Say the Council's Action Deprives Them of Proper Fire Protection.

The Bell telephone company suffered a blistering blow from the St. Joseph city council last night. It was ordered by that body that the six 'phones now in use by the city, furnished by the Bell people, be removed at once and the city transact its telephone business over the lines of the Twin City exchange.

This order went into effect amid some opposition. It was opposed by one alderman—Alderman Reeves—and Manager Badour of the Bell exchange and a few citizens raised their voices against the measure. Mr. Badour insisted that the entire six 'phones would be furnished free. It would not cost the city a cent to use them from the present until an indefinite period in the future.

The citizens who favored the use by the city of the Bell 'phones reside on the outskirts of the city and have all installed Bell 'phones in their residences since the reduction in the rates by that company. These people claim that the adoption by the city of the Bell 'phones will give them better fire protection than they now enjoy. In case of a blaze in their locality they can alarm the fire department over their 'phones, with the city using the Bell instruments, while with the Twin city company's 'phones in the city hall and fire station the 'phones in their residences are of little utility. They have all signed a year's contract with the Bell company at prices varying from \$6 to \$12 per year and they want to get value received.

E. N. Hatch, Alfred Baldrey and W. A. Preston used persuasive arguments against the further use by the municipality of the Bell company's instruments. It was shown that the exorbitant telephone rates of the Bell company would have continued had not the citizens' exchange got into the field, and that the city was protecting its residents by adopting, exclusively, the use of the new 'phones.

When the council balloted on the resolution to remove the Bell 'phones all the councilmen but Reeves voted for it. Reeves said "nit."

### Other Council Proceedings.

A petition to extend the water main on Lakeview avenue was referred to the board of public works.

The committee from the board of public works, instructed to make a house to house inspection with a view to detecting water thieves, reported one case in which the payment of \$10 into the city treasury was evaded by reason of the connection not having been reported.

John Kibler was granted permission to tap the sewer on Main street.
